# How to enable power and connect the cable for a 580 customer display

Slacken the two holding screws & slide the main board out of the unit.

Enable 12V for Com3 or Com4.
The Photo shows Com4 enabled

7.2.4. COM3 & COM 4 Power Setting

Function	JP3
COM3 PIN10_RI	◎1-2
COM3 PIN10_+5V	3-4
COM3 PIN10_+12V	5-6
COM4 PIN10_RI	◎7-8
COM4 PIN10_+5V	9-10
COM4 PIN10_+12V	11-12

Cable must be fitted correctly. The end with the shrink sleeve goes into the display.
